

Impro Australia Inc presents its latest blockbuster...

PREQUELS & SEQUELS

Hollywood had it coming...

Directed by Geoff Bartlett and produced by Irene Sarrinikolaou

Were you ever unhappy with the ending of a film? Did you want to change what happened? Or did you want the story to keep going after the final scene?

Impro Australia's **Prequels and Sequels** will pick up the story for you right where Hollywood left off. See Sydney's top comic improvisers remake blockbusters, comedies, thrillers, romances and art house classics - with the audience in control.

Be the first to witness the never before seen Prequel or Sequel to your favourite film performed live. See *Shrek 4*, *Oceans 10* or *The Bourne Retirement*. Or combine your favourite films to find out who'd win a fight between Yoda and the Terminator.

You can even relocate or recast a film. Have Borat as the star of *Mission Impossible*, or move *Casablanca* to the International Space Station.

Whatever you're after, Impro Australia's **Prequels and Sequels** will create the version of your favourite film that you always wanted.

Prequels and Sequels: Even Spielberg doesn't have this much power!
